

## CAPABILITY STATEMENT

Spectrum Healthcare brings the best and most advanced compression therapy products, Lymphedema Products and treatment to your home. We have a full line of compression treatment products and Lymphedema Products to remedy mild to severe swelling conditions caused by a wide range of vascular and circulatory problems. Compression therapy is widely recognized as a highly effective treatment for disorders like lymphedema, edema, venous disease, PAD, chronic non-healing wounds and many other arterial and vascular ailments. Depending on the specific details of your condition, we can help match you up with the best compression therapy products, compression garments and compression regiment that will get you the most relief. Among these are a number of wound care products for those suffering edema as well as patients with chronic non-healing wounds that require specialized wound care products.
